PRESS RELEASE

Date: April 12, 2010

Divine Diva-Stores.com makes Beauty Ethical!

We all know these trade shows can be exhausting, both on the feet and the mind! So why not take a break and visit the Diva Stores stand, where you'll find a fantastic selection of luxury ethical beauty products to choose from? You can treat yourself, buy a gift for a friend or loved one, or discuss the possibility of linking your business with Diva.

Diva-Stores.com was set up by Managing Director, Carole McCall, to offer a range of quality ethical beauty products on-line. "I started this company whilst living abroad because I found it was impossible to get high quality, organic, fair-trade and ethical stuff in one place. I have always had an interest in green issues and started to source suppliers whilst travelling extensively with my work," says Carole, who runs the company from her office in Bury St Edmunds.

Diva Stores' organic beauty range includes: cosmetics, skincare, haircare, bath and shower products, suncare, products for men and products for babies.

Plus, Diva doesn't just sell beauty products. The company offers a fantastic extensive range of gifts, homeware, food, fashion, books,

gadgets, health products, jewellery, products and toys for children and gifts for men, all from ethical sources of course. “Everything we sell makes a positive impact on the planet. As well as offering products from leading ethical brand names we support small companies and craftspeople from all over the world”, adds Carole. “We truly believe in making the world a better place”.
